Non-Criminal Incidents Motivated by Hate,* 2006-2010

* An action by any person directed toward the person or property of another (including insults, jeers, signs, literature, or any other such expression) when the action in and of itself does not constitute a criminal or quasi-criminal act; but where the primary motive/intent of the action is an expression of animosity, contempt, or bias based upon another's race, gender, color, creed, religion, ancestry, sexual orientation, physical or mental disability, or national origin.

Information Reports submitted to the Civil Rights Section as "noncriminal incidents motivated by hate" are reviewed by Civil Rights officers solely for the purpose of determining potentially tense or volatile community situations and are in compliance with the guidelines regarding First Amendment investigations. If it is determined after reviewing noncriminal incident reports that a hate crime has, in fact, been committed, a General Offense Case Report is submitted and a thorough criminal investigation conducted.
