

PAX 501

Matt L. Rodriguez, Superintendent of Police

VOLUME 95

20 APRIL 1995

NUMBER 1

OPTIONAL WEARING OF THE UNIFORM HAT — PILOT PROGRAM

Since the Chicago Police Department's new pilot program of optional wearing of the official uniform hat will be implemented in early June of this year, I as your Superintendent have made the decision, for the better of the department, and to boost overall department morale, to also disregard the traditional headgear, and have personally employed three new administrative additions to our Research and Development Department to come up with a new look for me to take this department into the year 2000.

I am asking for your help in this new project, and would appreciate after choosing your selection if you, the rank and file of this fine organization would call in your vote for my new look for the twentyfirst century by calling 1-900-NO HAT MATT., or pax 501.
